DESCRIPTION:

The first place we visit is the Blue Cave on the island of Biševo, which we will visit at the perfect moment of the day, when the blue color is showering this cave the most.

From here, we head towards the southern side of the island of Vis, and stop at the famous Stiniva beach. Find out why Stiniva was declared one of the most beautiful beaches in Europe. Here you will spend time swimming and don't forget your camera to take pictures on this beautiful beach.

The next island we will visit is the island of Ravnik, known for another natural landmark, the famous Green Cave. Here you still have time to swim and snorkel or you can stay on the boat and enjoy the view.

We slowly continue our excursion and go to the next island, which is the island of Budikovac, known for its perfectly clear sea and beach called the Blue Lagoon. You will spend most of your time swimming and diving here, because this beach is just perfect for that.

Relax and enjoy the boat ride, while we take you to a popular place - the Pakleni otoke in the Hvar archipelago. We will stop in Palmižana bay for lunch, feel free to ask your skipper for recommendations. You will have plenty of time here to have lunch and explore the island.

Our last destination on this excursion is the island of Hvar, and we will take you to the town of Hvar. In Hvar you will have plenty of free time to explore the town, we recommend you to visit the fortress Fortica, feel free to ask the skipper to show you the way to get there.

Our excursion ends here, and in the late afternoon we head back to Split.
