DESCRIPTION:

The flight starts by gliding over the Sinj field and continues along the Cetina river towards the town of Trilj, where we make a turn towards Imotski, flying over the karstic landscapes. The town of Imotski boasts two pearls of nature, two lakes placed at the bottom of large craters. The rocks enclosing these lakes are of different colors; one is surrounded with blue, and the other with red rocks. We continue our flight towards Omiš, placed right at the mouth of the beautiful canyon of the river Cetina, offering the view of the open sea. The flight continues along the coastline towards the suburbs of Split, where we turn towards the Klis fortress and the town of Sinj.
